

Sourcewell Co-op Purchasing Program

We're your total energy solutions partner

From federal agencies to municipal governments and water agencies, energy resilience is a top priority. Energy Systems energy solutions are designed to meet the unique demands of government agencies, ensuring continuity in operations while addressing growing sustainability goals and compliance requirements.

At Energy Systems, we make it easy to procure your industrial and mobile power-generation equipment. Our Sourcewell contract satisfies competitive bid requirements and allows us to

work directly with your agency to purchase equipment and services and efficiently manage the entire process from start to finish.

WHAT WE DO	HOW WE DO IT
<p>Reliability: We ensure your agency's critical operations stay powered with dependable energy solutions, guaranteeing uninterrupted performance when it's needed most.</p>	<p>National presence, local service: With locations in key regions across the U.S., our service and support teams ensure rapid response and repair, minimizing downtime and ensuring your government operations remain powered and reliable.</p>
<p>Scalability: Our energy solutions are flexible and made to scale across government infrastructure, supporting everything from small municipal buildings to large federal complexes.</p>	<p>Customized Energy Solutions: We tailor our energy solutions to meet the specific needs of your agency, from small-scale municipal projects to large federal facilities.</p>
<p>Compliance: Strict regulations are required by government agencies, and we help ensure you stay compliant with essential energy mandates and standards.</p>	<p>Compliance with Government Regulations: We collaborate closely with regulatory bodies to ensure all products not only meet but exceed government energy requirements.</p>
<p>Sustainability: We integrate renewable energy solutions to help you reduce your carbon footprint while maintaining the resilience and efficiency your agency requires.</p>	<p>Sustainable Innovation: By incorporating advanced renewable technologies and energy storage systems, we help government agencies achieve sustainability goals without compromising reliability or efficiency.</p>

As energy resilience becomes more critical due to increasing threats such as natural disasters and cyber-security risks, we offer necessary solutions for reliable, uninterrupted power. From stationary generators and mobile equipment to business connectivity and microgrids, we have you covered to match your business need.
